

Luvata Appleton

Luvata Appleton is a fully-integrated producer of copper alloy wire. We manufacture round, square and rectangular wire from 0.006" to 1.000" available in over 60 copper alloys commonly found in batteries, electrical power, renewable energy, ordnance, welding and aquaculture.

Luvata Appleton is the leading supplier of battery nail wire worldwide. We produce enough battery nails to help our customers to produce over 4 billion batteries a year.

Luvata Appleton is located in Northern Wisconsin and has three manufacturing facilities totaling over 300,000 square feet. With nearly 150 employees, Luvata Appleton has been steadily growing within the Fox Valley. Please email appleton.recruiter@mmluvata.com for more information.
